

BOAT HIRE

We encourage you to come to the competition with your own equipment. However, for players and clubs who do not have their own boat, we offer the possibility of renting boats on site. Please note that the boats may not be perfectly set and weight-matched to the borrower. The number of rental boats is limited.

Competitors who do not have their own boat may use the boats provided by the organizer. The cost of such a service is **PLN 500 / EUR 125 for a carbon-fibre boat or PLN 200 / EUR 50 for a wooden boat.**

Competitors who have their own boat can also rent it to a competitor starting in another division.

A competitor who makes his own boat available for use by another competitor is exempt from the registration fee. This competitor will also receive a hiring charge from the organizer.
